Call Before You Dig

The Florence Utilities Gas Department is a member of the Alabama One Call Line Location Center at 1-800-292-8525. This is a free call and you need to call two working days before you start to dig. A representative will come to your location and locate all underground utilities free of charge to you.

By calling before you dig, you could avoid damaging the environment, interruption of your service, job/project delays, legal problems, accidents and injuries.

Even if you are not a customer of the Florence Utilities Gas Department, you still might have gas lines around your property. That's why we are asking everyone to call 1-800-292-8525 or 811 before you dig.

Remember this is a free service to you.

Llame Antes de Excavación

El departamento de Gas de utilidades de Florencia es un miembro del centro de ubicación de Alabama una llamada línea al 1-800-292-8525. Este es un llamado libre y es necesario llamar a dos días de trabajo antes de comenzar a excavar. Un representante vendrán a su ubicación y localizar todas las utilidades subterráneas sin costo para usted.

Al llamar a antes de que cava, se podrían evitar daños al medio ambiente, la interrupción de su servicio, trabajo o proyecto retrasos, problemas legales, accidentes y lesiones.

Incluso si usted no es un cliente del Departamento de Gas de utilidades de Florencia, todavía podría tiene líneas de gas alrededor de su propiedad. Es por eso que pedimos a todo el mundo para llamar a 1-800-292-8525 o 811 antes que cavar.

Recuerde que esto es un servicio gratuito para usted.

ENERGY SAVING TIPS

- Caulk and weather strip around windows and doors to stop air leaks
- Seal gaps in floors and walls around pipes and electrical wiring
- Change air filters monthly
- Replace incandescent bulbs with compact fluorescents – they use 75% less energy and last 10 times longer
- Install aerating, low-flow faucets and showerheads
- Fix any leaky faucets – one drop per second can add up to 165 gallons a month
- Tune-up your heating and cooling system annually to keep it running as efficiently as possible
- Have your ductwork inspected and repair any leaks
- Add insulation to your attic, crawl space and any accessible exterior walls
- Wrap your water heater with insulation or install an insulating blanket
- Use power strips for home electronics and turn off power strips when equipment is not in use
- Reduce hot water use by taking shorter showers and using cold water for the rinse cycle in your washer
- Turn off lights, televisions and other appliances when not in use
- Perform a do-it-yourself home energy audit. Online and paper versions are available.
- Turn up your cooling system's thermostat to 78° F or even higher if no one is home for several days
- Keep all windows and doors located near your thermostat closed tightly
- Keep your outside air unit clean and clear of debris or weeds

NOTICE
